**REFILL CALL IN 333-2273**

All refills must be called in by **1400** to be picked up in **24 hours**. Refills called in on **weekends or holidays** will be ready **2 duty days later**.

**Guidelines for Civilian Providers**

**Federal Facilities exclusively use generic medications when quality AB-rated generics are available.** We ask that you write prescriptions that allow generic substitution or substitution of other brands of the same drug. Be sure to have printed name, address, and phone number on all prescriptions.

All prescriptions, except as noted, are filled for the quantity prescribed up to a 90 day supply, with refills up to 1 year on non-scheduled items.

Providers must not write prescriptions for controlled substances for themselves or their family members.

Controlled substances in schedules III-V may be refilled five times or for six months, whichever comes first. Schedule II controlled substances may not be refilled from the same prescription. The 10<sup>th</sup> Medical Group Pharmacy **does not accept faxed prescriptions for Schedule II controlled substances.** We also do not accept prescriptions for controlled substances with non-specific directions. Be sure to have printed name, address, phone number and DEA number on all scheduled prescriptions

The 10<sup>th</sup> Medical Group **does accept faxed** prescriptions for non-controlled and Schedule III-V controlled substances. Prescriptions can only be faxed from the provider's office and must include **patient name, SSAN, address and phone number.** USAF pharmacies in the area **Do Not** accept phoned in prescriptions. **Faxed prescriptions will be filled when the patient comes to the pharmacy!**

Prescriptions can be transferred out to any pharmacy. Prescriptions cannot be transferred in, unless from another military facility. The label from the other military facility must be brought in to the pharmacy. Bring your label in before you have run out of medication, as it may take 24 to 48 hours to make the transfer.

**\*\* The formulary is updated approximately every 2 months. Because of constant changes, call before prescribing a new medication.\*\***
